Tuesday

Plan

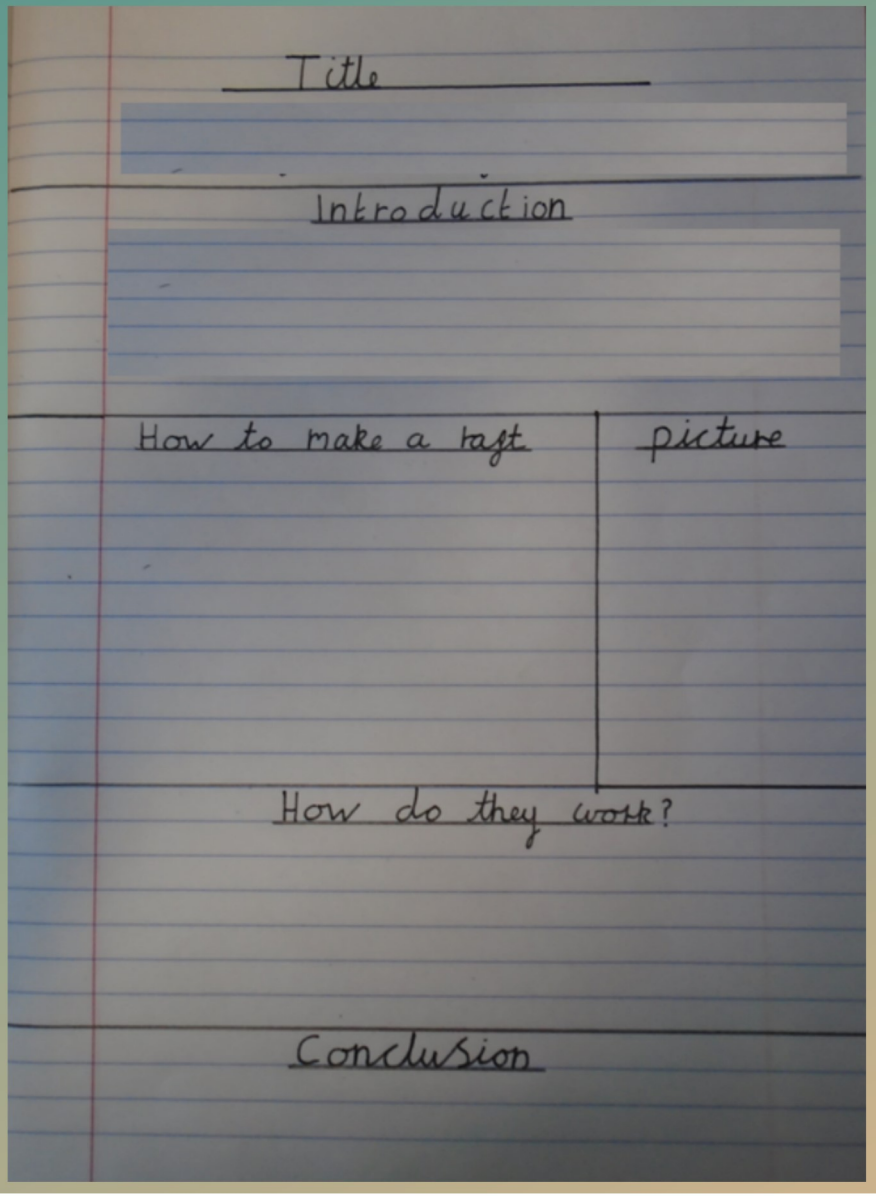

LO: To plan an explantion text

Today we are going to be collating all of our learning from the past few weeks to create a plan for our work tomorow.

The good news is you have already done all of the hard work!

We are going to be using the same planning format that we have used before this year but first we need to carefully set out our planning page in our books to help us.

Spend 5 minutes using you ruler and pencil to set out a page in your book to look EXACTLY like this

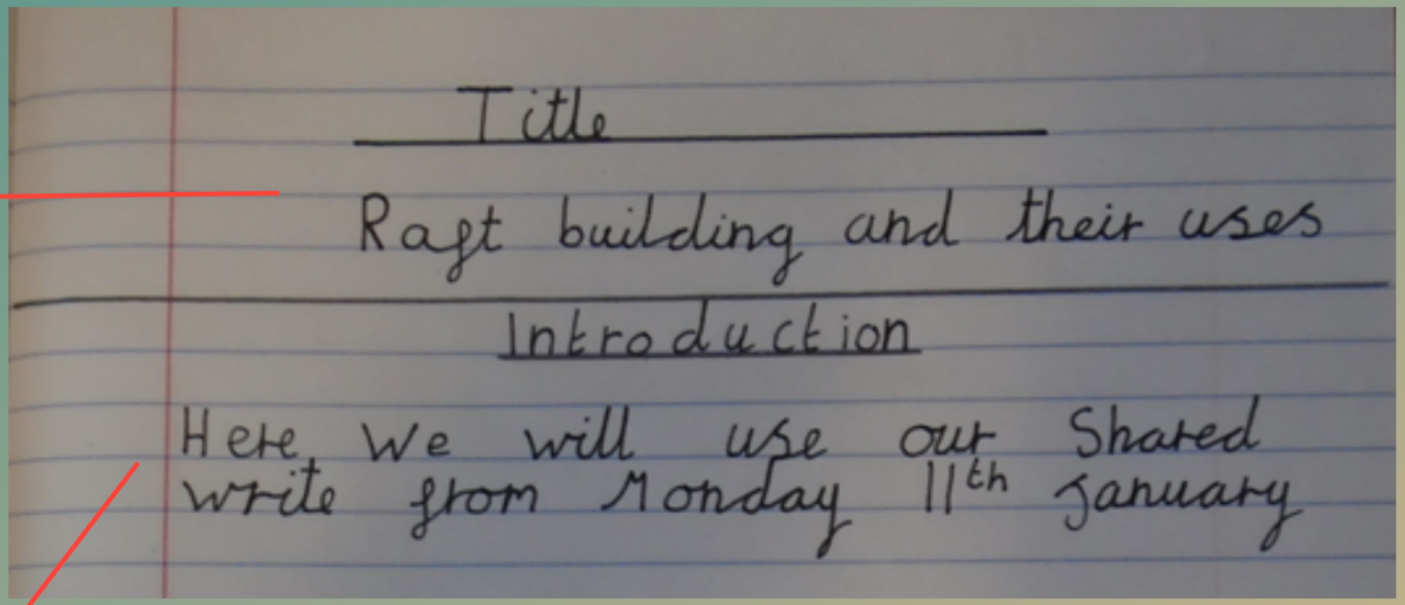

Now that you are set up lets populate our first two boxes. Go back to your work from Monday 11th January to find this infomation.

Title

Your title must be about what you are explaining

Introduction

We have already written our introduction so just put a note in here to remind you where to look

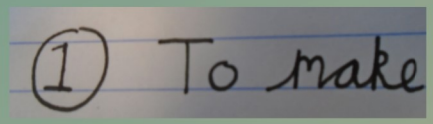

Paragraph 1 - How to make a raft

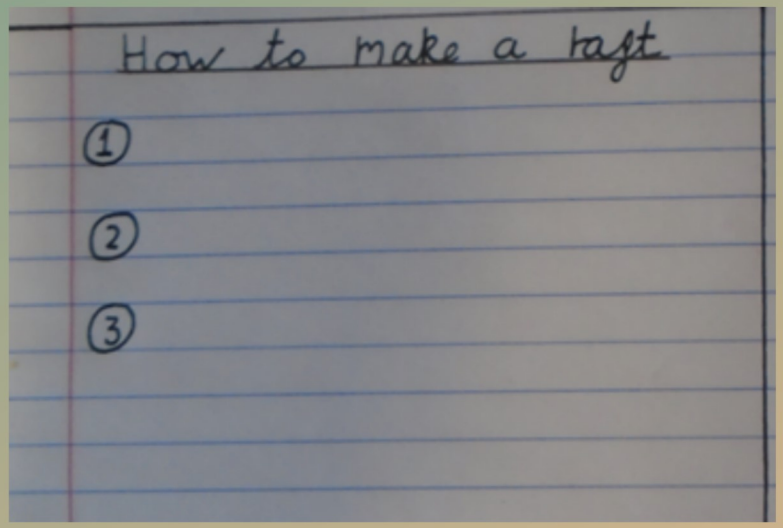

For this section we will need to go back to our work from friday 8th January.

To make a basic raft you must firstly find building materials such as wood and rope.

Now go back to your plan and put a number 1 in your plan, now when you work thoguh your plan you will know what sentnece to write down and when

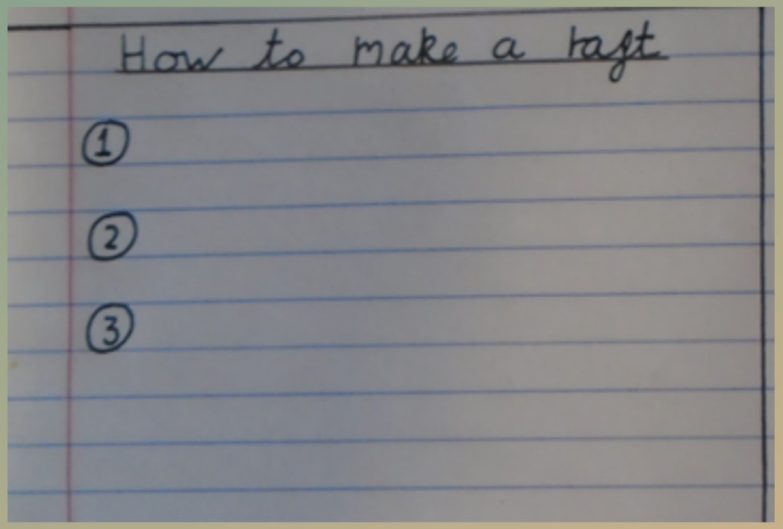

Our first sentence will be the one above. You have already written this so just like we do in class, go back to it in your book is and put a number one next to it like this

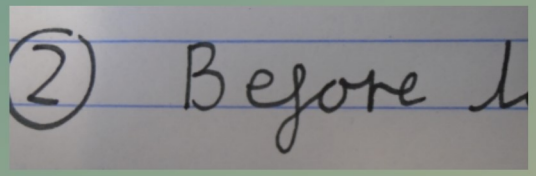

Before long You will have all of the materials you require, Next you need to tie them together tightly to create a flat platform.

Now go back to your plan and put a number 2 in your plan, now when you work thoguh your plan you will know what sentnece to write down and wher

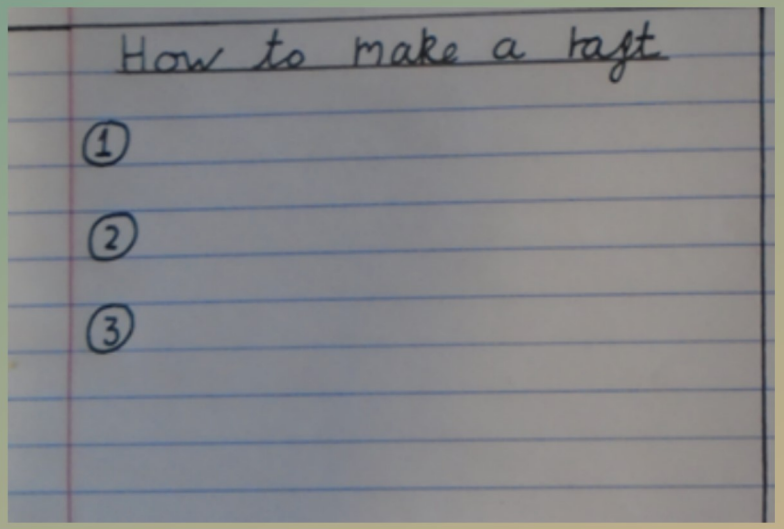

Our second sentence will be the one above. You have already written this so just like we do in class, go back to it in your book is and put a number 2 next to it like this

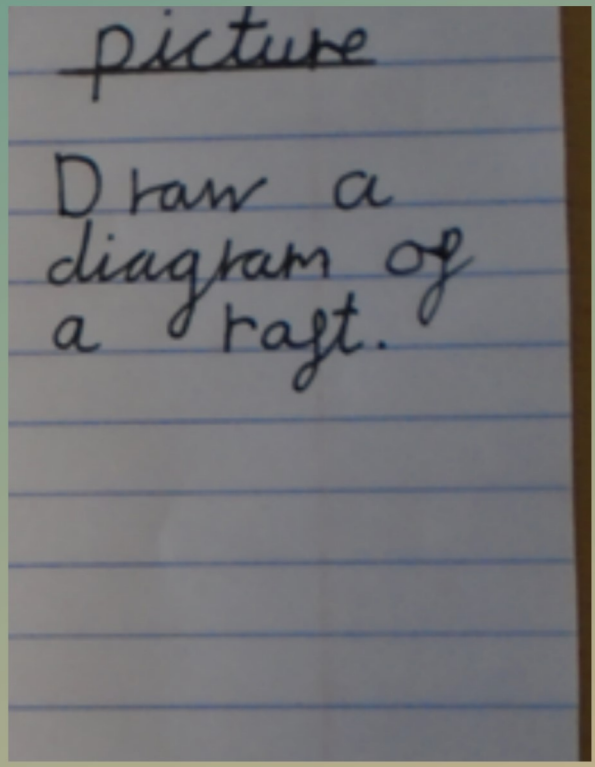

Your last sentece will be one of your independant sentences that you produced in the same lesson as sentences 1 and 2.

Now go back to your plan and put a number 3 in your plan, now when you work thoguh your plan you will know what sentnece to write down and when

Now find the sentence you want to use to finish this section off and lable it with a 3.

In the picture section just make a note to remind you to draw a diagram of a raft in your own explanation text

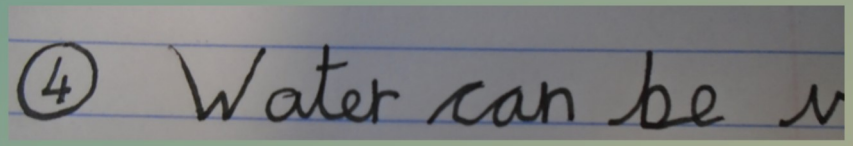

Paragraph 2 - How do rafts work

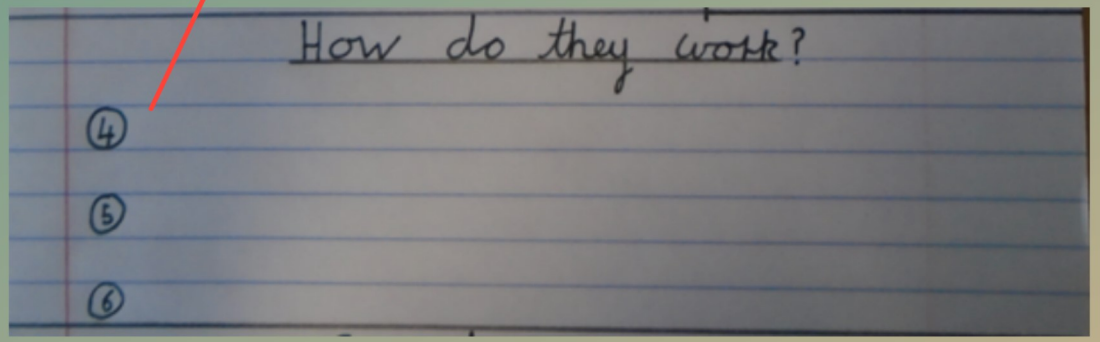

In This section we are goin to pick 3 sentences from our cause and effect lesson on Thursday 14th January

Water can be very dangerous therefore rafts need to be very strong enough to survive rough seas.

Our fourth sentence could be the one above. You have already written this so just like we do in class, go back to it in your book is and put a number 4 next to it like this

Put the number 4 in your plan under the **How do they work** sub heading

Repeat this process for sentences 5 and 6 using you cause and effect sentences from Thursday 14th of January.

Conclusion

We have already written our conclusion yestersday so just put a note in here to remind you where to look
