

Floating or Sinking

We have been looking at forces in Science this term, and part of this includes floating, or sinking.

Look at the objects in the table below - do you think they will sink or float? You do not have to use these, you could use different items instead, or start with these and then try more items.

What ever you experiment with, try saying before if you think items will sink or float.

Float or Sink

Objects	Float 	Sink 
 coin		
 pencil		
 cotton ball		
 crayon		
 rubber band		
 wooden stick		

Now can you find some objects of your own.

Draw a picture of the object in the first box, then find out if it sinks or floats.

Objects	Float 	Sink
