

Unit 8

Subtraction within 20

- In this unit we will ...
- ⚡ Subtract tens and ones
 - ⚡ Learn how to cross a 10 when subtracting
 - ⚡ Compare additions and subtractions
 - ⚡ Solve word and picture problems

We will need a ten frame again. Can you remember how to use it to help you find the answer to $15 - 3$?

$$15 - 3 = \square$$

We will need some maths words. Have you seen all of these before?

subtract take away
 find the difference
 how many are left?
 tens ones number bonds
 part-whole

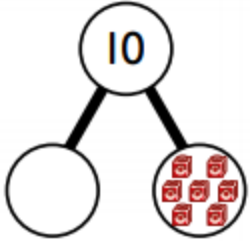

We can also use this
 and this
 to help us.
 What is $13 - 3$?

Power Up

Explore the number bond.

$\square + \square = \square$ $\square + \square = \square$ $\square - \square = \square$ $\square - \square = \square$	<p>Make it</p>
<p>Draw it</p>	<p>Put it in a part-whole model</p> 

Can I make the number bond in any other ways?

Subtraction– crossing the 10 ②

Discover

- 1 a) How many  are there?
How many children need a ?
How many  are left?

b) Show your calculation on a  or

1	2	3	4	5	6	7	8	9	10
---	---	---	---	---	---	---	---	---	----

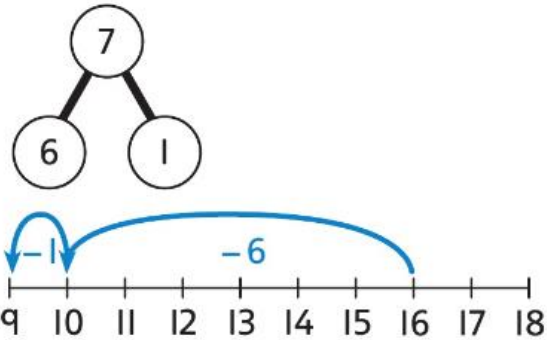

.

Use Part Whole

Think together

- 1 The teacher has 16  .
7 children need a  .
How many  are there left?

$$16 - \square = 10$$

$$10 - \square = \square$$

So

$$16 - 7 = \square$$

There are  left.

- 2 There are 15 boys in the class.
There are 8 girls in the class.
How many more boys are there than girls?

$$\square - \square = \square$$

$$\square - \square = \square$$

So

$$15 - 8 = \square$$

There are more boys than girls.

Use Part Whole

3 Work out these subtractions.

a) $20 - 12 = \square$

b) $20 - \square = 9$

Use Part Whole

Fluency

write in books

Subtraction – crossing the 10 ②

① Tim has 15 .

He eats 7.

How many are left?

$$15 - \square = 10$$

$$10 - \square = \square$$

So

$$15 - 7 = \square$$

② There are 14 children in a group.

5 are boys. How many are girls?

$$14 - \square = \square$$

$$\square - \square = \square$$

So

$$14 - 5 = \square$$

Use Part Whole
